Whether Gluten Free is a dietary choice or a health necessity, Bob & Pete's has a range of bakery offers that are delicious.

Our philosophy is that all our products, including Gluten Free will always be 100% yum.

For those that medically need a Gluten Free diet, Bob & Pete's products are certified and tested to ensure they are Gluten Free.

Gluten is the protein naturally found in grains such as Wheat, Rye, Barley, Oats and other associated grains. Gluten is very useful in baking as it provides the structure, elasticity and texture for baked products and even helps to stop the filling in a meat pie leaking through the pastry and keeping bread soft. Gluten also provides some of the freshly baked flavours so loved.

In the past, finding substitutes for gluten has been very difficult. Not just for its structural contribution, but also because the taste of the alternatives - such as rice or soy flour - lack the depth and baked flavours that gluten provides.

UNTIL NOW... We stand behind the taste of all our products. Every product in the Bob & Pete's Gluten Free range delivers on flavour, function and look.

The Bob & Pete's team, 100% Yum

ALL THE SWEET STUFF, NOW GLUTEN FREE...

Don't miss out on all your favourites!
